

October 30, 2025: On Intentional Interference and Intrusion into my Religious Values

As a supplement to the previous posting On Continuing Intrusions by Acoustic Bombardment of October 30, 2025, I am adding this information to document the type of work that is being illegally observed by the USA military's ongoing illegal intrusion into our home.

I am currently working privately to interpret the Hebrew and Greek words used to draft the Biblical record of Jesus. I am attaching this work, as completed to date, as proof of my current - private - religious work.

However, since this is being illegally observed and 'commented upon' by these same spy-forces that I am describing in the previous entry, I am also (prematurely) disclosing this work to the public for its understanding and knowledge of why this type of intrusion is being forced upon my life.

Additionally, I am recording the distinct impression that is being 'conveyed' to me that these forces are prompting me to continue my work in the Lesser and Greater Keys of King Solomon to use as an attempt to 'summon demons' through the ancient Egyptian mystical papyrus that I also have been reviewing over the last few days.

Finally, I am writing to record the further impression that I am receiving as a request to 'decode' the Qabalah ciphers of the Gematria, Notariqon, and Temura.

Yes, these are definitely foreign concepts that require research to unravel, decipher, decode, and translate, but this is the type of work that I am encountering in my current religious research.

I am recording publicly that the current USA national security apparatus is evidencing signs of true Nazi-ism and an intentional request to 'break into' the ancient religious writings of Judaism.

Once again, I wish I were exaggerating, but unfortunately, these are the true and accurate descriptions of my daily life - and the world's daily life - as we witness extremely dangerous news stories being disclosed on a daily basis.

I have already alerted everyone that I can within the government and I am actively alerting everyone that I can in the public as well.

I am Mosheh, your prophet. I am a prophet to whom you committed your mysteries, and the ceremonies of Ishrael:

You produced the moist and the dry, and you produced that which nourishes all created life.

Hear me, because **I am the Angel of** Paphrô Osorronophris.

Paphrô Osorronophris is your true name.

Paphrô Osorronophris is the name that is handed down to the Prophets of Ishrael.
